HERE FOR YOU

**School Age Child Care at the
Child Learning Center**

HUNTERDON COUNTY YMCA

The YMCA Child Learning Center in Annandale offers a child development program with a rich educational foundation. In addition to our early childhood education program, we are offering a full-day program for school age children.

The Center has been open since mid-May, initially serving families of essential workers and then opening to all families in June. Our operating systems and protocols are proven effective. They have been well received by the families we have been serving over the last several months. Parents can expect a high degree of health and safety practices, tried and tested in real time.

Health and Safety Protocols Overview

- Outside drop-off and pickup. Parents do not enter the building
- Daily entry health (symptom and temperature) screenings outside the building
- Regular symptoms and temperature checks throughout the day
- Social-distancing between children in the classroom
- Frequent hand washing and surface/material disinfecting throughout
- Masks are required while children/staff are indoors
